25X1

2. The Report's purpose is to provide an accounting of the Intelligence Community's support to US policy objectives in order to provide Congress with an appreciation of how the Community's enhanced capabilities have been utilized. The particular focus of the Report this time [] is to be "the substantive and operational accomplishments of 1984, presented in the context of the major substantive issues of the year."

4. Specifics:

a. NIC will have sole responsibility for drafting the contextual statements (paragraph 3-a, above).

b. All relevant precincts of the Community, NIC included, will be contributing accomplishments (paragraph 3-b, above). IC Staff will do the melding of all these.

c. These chores should be fairly simple for the NIC, and not too demanding of time and energy. Please give me your contributions, as outlined above, at any time before 3 December. I will put them together and send off

25X1

-- For the substantive items (3-a), about one to two pages each (double-spaced) should suffice. The point here is to capsule how each of these issues confronted the US Intelligence and Policymaking Communities in 1984.

-- For the accomplishment items (3-b), please keep them short, crisp, and candid.

d. Particular NIO assignments for the above items break out fairly logically from the IC's above outline. If you have any questions, please give me a ring. Many thanks.
